

Wendz Racing / RMCR Pre-Dyno Checklist

Prior to bringing your vehicle to the shop for dyno use, please review and complete as appropriate the steps in this pre-dyno checklist.

- Complete the Dyno Release Form
- Spark plugs ... are they fresh?
- Fuel tank ... is it full?
- Fuel octane ... is it the correct octane?
- Fuel pump ... is it the proper size for engine's power (hp)
- Fuel injectors ... are they of the proper size to supply the engine's fuel needs?
- Tires ... are they good? (don't want a tire blowing out on the dyno)
- Tire air pressure ... do the tires have the correct air pressure for the street?
- Belts & hoses ... are they in good order?
- Overheating ... does the car overheat?
- Custom tune ... does the car have an other-than-stock tune?
